To Whom It May Concern

Good day

There was a gentleman agreement between S. Kangalee and myself W. Applewhite which was that whatever areas remained on or when I vacating the apartment it will be liquidated by me selling off some of my assets. That was done in the pass by me selling my car to pay off previous outstanding areas which he complimented me on keeping my word, my intent was to do the same when vacating. This agreement was made because I was and still is trying to bring legal proceeding against a reputable company for copy rights infringement which was mainly responsible for the heavy drop of my cash flow. That mean I hold myself responsible for the paying of areas to the amount of \$70,000, but I did not vacate the apartment in a civilized manner in order for that to be undertaken. Despite my belongings was already pack for moving, I still waiting on HDC Social Welfare Department to acquire a house in a suitable location.

Despite my financial disadvantages the landlord still found it fitting to increase my rent from \$3,000 to \$3,500. Such uncivilized ways were part of my experiences throughout my tenancy, even after serving him a registered letter concerning his attitude. (Copy of the letter enclosed).

After serving me a lawyer letter stating the balance of rent owed also a personal attachment notice to vacate the apartment. He continued such uncivilized behavior after by cutting of the electricity also the water supply to the apartment, then after several weeks everything reaches to a climax some time in December 2016 after dropping my son to school, on returning to the apartment I found the fence gate padlock which was unusual and a voice coming from the upstairs gallery of the apartment which was A. Kangalee saying to bring his money and police to retrieve my belongings. All I did was to walk away and never return to the front of the house.

Another lawyer letter was served indicating to pay off monies owed also to collect mine belongs. I personally communicated with the lawyer seeking more time to fulfil such asking, but her response was that my belongings will be sold. Further to that I received a phone call from an unknown male person indicating to bring \$7,000 to get back my son's belongings, responded by saying when I get hold of my belongings you will get the money, but the conversation came to an end. The reason for my response was there was \$10,000 in the fire proof cabinet plus more than \$3,500 stored in a coat that was in the wardrobe.

S. Kangalee unlawful and uncivilized methods of procedures brought hardship and depression to my son Adio Applewhite and me as follows;

Adio Applewhite way of life was tremendously interrupted for instances no change of clothing and footwear, the absent of educational learning aid for home and school played an important part for dropping from 88% to 45% school grade, and recreational activities came to an abrupt end by him not having the necessary things that he was used too. All these things aided mental disturbances.

Winston Applewhite developed further loss of earnings cause by the seizure of equipments and materials, made it very difficult facing a high level of expenditure to replace clothing, footwear, educational and recreational things for my son and self, reapplying for Birth Papers, ID Card and Drivers Permit, last but not least, the seizure of belongings contains evidence for commencement of copy rights law suit which is pending from that time too now.

I wrote a letter to S. Kangalee seeking information about my belongings but received a negative reply from his lawyer.

Living is Loving
